

# Benefits Board - Small Cap Fund

As of 11/30/2025

## Investment Objective:

To achieve long term capital appreciation by investing in a diversified portfolio of small-capitalization stocks.

## Investment Strategy:

The fund is managed by two investment managers: Vaughan Nelson (Houston, TX) and Apex Capital Management (Dayton, OH).

**Vaughan Nelson**, founded in 1970, is a Houston-based investment manager with \$15 billion under management. As a boutique affiliate of Natixis Investment Managers, S.A., they manage six equity and four fixed income portfolios. For the Benefits Board, they manage a small-cap value portfolio where they seek investments which they believe have the ability to generate a 50% return over three years while having a longer time horizon allows them to exploit short term volatility and poor price discovery.

**Apex Capital Management** is focused on growth investing. As part of the U. S. division of Fiera Capital, they invest in companies with stable growth and emerging growth characteristics that are within industries and sectors that are poised to benefit from global secular growth trends.
